Call for Voluntary Annual Contribution 2023 (FJB23)

Dear arts therapies colleagues worldwide,

We hope our mail finds you well. We are writing to you today, because we would like to draw your attention to our work at the international coordination of ICAAT. Our team had been committed once again this year to support, network and make the different fields of arts therapies (sculpture, painting, music & singing and speech & drama) more visible in the world.

It has always been important to us to promote our work as anthroposophic arts therapists and be seen by the leadership of the Medical Section as well as all other fields within anthroposophic medicine (e.g. pharmacy, midwifery, etc.); that community doctors take notice of us and that this also results in increased connection and support.

Esther Böttcher, Linda Teipen and myself work for the coordination alongside our professional activities as arts therapists - often on our free weekends. We do not live in Dornach (which entails travel expenses from time to time) and are only compensated by the Medical Section for part of our working hours. We believe that our work is important to your professional life as anthroposophic arts therapists. Therefore, we would like to ask for your financial contribution to enable us to continue supporting you.

Please use the account details below (for which you will receive a donation receipt) for your much appreciated annual contribution (approx. the amount of a therapy unit of 60 minutes) and reference it "Donation ICAAT 23".

With a big THANK YOU to all of you and with many good wishes for your work in the arts therapies all over the world!

For the ICAAT team
